SUMMARY

Product design lead with seven years of experience across fintech, B2B, and consumer SaaS. I work across the full product lifecycle, from user research through design, prototyping, and implementation. I also build with AI and frontend tools, which lets me move from an idea to a working product without stopping at the Figma file.

SKILLS & EXPERTISE

Product Design · UX/UI Design · User Research · Usability Testing · Prototyping · Design Systems · Product Strategy · Generative AI · AI Product Design · SaaS · Fintech · Cross-Functional Leadership · Stakeholder Management · Figma · Claude · Cursor · MCP

PROFESSIONAL EXPERIENCE

SouthEast Bank

Product Design Lead

Salt Lake City, UT
March 2025 - Present

- Led end-to-end product design and UX strategy for the bank's first customer-facing deposit application, taking it from a 3-product concept to a focused launch and shipping the experience customers use today.
- Owned the lending experience end to end, partnering with engineering, underwriting, and operations to redesign everything from initial KYC through failed bank links, document collection, and multi-day pending transfers.
- Identified rate confusion as a major source of student-loan drop-off through user research and usability testing, then designed and prototyped a fixed-vs-variable loan calculator that reached 80% adoption in its first month.

MDSV Capital

Senior Product Designer

Palo Alto, CA
February 2023 - January 2025

- Digitized equestrian show entry and results, replacing paper-based workflows and reducing fulfillment errors 35%.
- Redesigned onboarding around AI-powered age verification, reducing abandonment from 51% to 20%.
- Designed a real-time investor dashboard that increased engagement 40% in six months and doubled data-room requests.

Underbelly

Product Designer

Salt Lake City, UT
March 2021 - January 2023

Product designer embedded across client teams spanning fintech, insurance, and enterprise SaaS.

Slide

Product Designer

Salt Lake City, UT
June 2022 - October 2022

- Ran a Google Ventures design sprint with Slide's executive team, securing a \$300K contract extension and approval to design its claims application.
- Designed the self-service claims experience and its edge cases, reducing the average claim from a 20-minute phone call to 8 minutes online.
- Shipped a claims flow that processed 10K+ claims in four months, moved 45% of claims off the phone, and supported Slide's \$35M raise.

Square

Product Designer

Salt Lake City, UT

September 2021 - December 2021

- Traced a spike in seller-reported phishing to Square's own email templates, which varied across departments and were difficult to distinguish from fraudulent emails.
- Consolidated those templates into 7 patterns with the design system team, migrating the highest-volume emails first.
- Designed sender identity standards and edge cases across dynamic content, plain-text fallbacks, and image-blocked emails.

Facebook

Product Designer

Salt Lake City, UT

April 2021 - September 2021

- Designed notification controls for admins managing 3+ Pages, helping them separate high-priority activity from a single notification stream.
- Defined notification sources, types, and defaults for admins managing multiple profiles.
- Validated filtering and sorting concepts through internal critique and A/B testing, shipping as Cross-Profile Notifications.

EDUCATION

General Assembly

UX/UI Design

Los Angeles, CA

August 2019 - November 2019

California State University, Los Angeles

B.S Nutritional Science

Los Angeles, CA

September 2013 - May 2018
